Subject Fw: NANO FOIA REQUEST

I am re-sending an earlier memo.

This is all that I have at this time. Betty would be the best person to fill you in on what is going on with nanotechnology for washing machines and for other pesticidal claims

Subject Re: NANO FOIA REQUEST

Zebora,

The Federal Register Notice that will classify ion generating equipment (including washing machines) will be published on this coming Friday (21st). If you have any specific questions or would like a copy of the document, I can get it for you. Susan Laing is developing the communication strategy for the ion generators.

Subject Pesticide versus devices

Hello Melba,

I was reading up on the EPA Pesticide Registration: Clarification for Ion Generating Equipment and wondered a few things:

Are products containing silver ion mixtures- such as Agion, required to have the registration?

Are nanotechnology applications of silver ions exempt?

Is aqueous ozone regulated as a pesticide by the USEPA or as a device?

Thank you
